

## Uninstallation of SQL Recovery

### Using Software Uninstaller

- ✓ Click Start button from the Windows menu. Click All Programs » **SQL Recovery** » **Uninstall SQL Recovery**:
- ✓ A **Warning message** before un-installing will be displayed on the screen. Click **Yes** to uninstall the software:

- ✓ After this step, **SQL Recovery** Software setup will start the process of uninstalling the software from the computer system.
- ✓ After this **SQL Recovery** Software will be successfully uninstalled from the computer system. Click on **OK** to close the window.

### Uninstall Using Control Panel

Another alternative described here for software uninstall is through Windows Control Panel which holds and maintains all system settings. This alternative is described here just for sake of completeness. You can easily skip this step if done with prior uninstall process.

- ✓ Click **Start** and look for Control Panel in start menu appears before you. Find **Add and Remove Programs** within Control Panel. Add and Remove Program generates comprehensive listing of all binaries presently installed on Windows. Find out **SQL Recovery** and double click on it to start with its uninstall procedures.
- ✓ Software prompts you either you like to remove **SQL Recovery** and all of its related components. Go for **Yes**.
- ✓ Click **OK** to message describing successful uninstall of **SQL Recovery**.
